The Raymond Lemaire International Centre for Conservation and the Civil Engineering Department of the University of Leuven, with the support of the UNESCO chair on preventive conservation, maintenance and monitoring of monuments and sites, will organize the 10th anniversary edition of the International Conference on Structural Analysis of Historical Constructions (SAHC2016).

The theme of the conference is "Anamnesis, Diagnosis, Therapy, Controls", which emphasizes the importance of all steps of a restoration process in order to obtain a thorough understanding of the structural behavior of built cultural heritage. Papers are invited for presentation and poster sessions on general topics and specific themes.
